E-Booktime, LLC, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book is a combination of the religious thinking and the scientific practice toward mature relationships and adjustable reflections. As a contemporary biblical and psychological interpretation, it is based on 40 years professional experience in counseling, relevant psycho-religious studies and a research for a healthy sensitive, intelligent personality. As a result, this new and original study of principles, motives, spiritual position, and human conduct points out to the sufficiency of God in the face of human failure, which can govern the attitudes and dispositions of the man without breaking the man s inward or outward. Both scientific and spiritual contents then could affect the basis of marital union. The bridal love is a baby love that may need the idea of full growth and maturity. It must assume full responsibility to the end of final task.
