Curiosity Quills Press, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.When newly-coined physicist Mira Verborgen sprung for a cushy internship at CERN, she did not expect to end up working side by side with sensitive European hottie, Giancarlo Colombo, or the sudden-onset case of butterflies whenever he s around. Nor did she expect the two of them to end up the inadvertent subjects of a megalomaniac Russian scientist s deadly energy experiment. Instead of their budding relationship being cut short along with their material existence, the pair develops a startling mutation. A mutation that puts them in the crosshairs of Swiss, French, and American governments - not to mention the dastardly Dr. Orlov. With CERN held hostage by Orlov and his rapidly-evolving superpowers, do Mira and Giancarlo have what it takes to own their mutation and protect the free world, before it s too late?.
