Gastrointestinal Symptoms in Advanced Cancer Patients

By Bruera, Eduardo (Editor)

Oxford University Press, UK, 2002. Hardcover. Condition: New. Dust Jacket Condition: No Dust Jacket. First Edition. 446 pages. Available Now. Book Description: Gastrointestinal symptoms such as anorexia-cachexia, chronic nausea, vomiting and bowel obstruction are highly distressing for patients with advanced cancer. Approximately one in three adults will be diagnosed with cancer in their lives and approximately fifty per cent of them will die because of malignancy. More than eighty per cent of patients who die of cancer will present severe gastrointestinal symptoms before death. : This book presents detailed, evidence-based information on each of the gastrointestinal symptoms for a multi-disciplinary audience. Comprehensive guidelines have been included on how to assess the patient, in order to ensure effective treatment, in which prescribing is tailored to the cause of the symptoms and to the patient's individual needs. The book recognises that the aim of good cancer management and palliative care is to assess, diagnose, manage and treat these symptoms to ensure best quality of life. : Review: The book provides a comprehensive overview of symptom management, as well as demonstrating the diversity of management of gastrointestinal systems around the globe. the book is skilfully written and edited to provide a comprehensive awareness...

Reviews

This publication might be well worth a read, and much better than other. It really is simplified but excitement inside the 50 % of the book. You will not feel monotony at whenever you want of the time (that's what catalogues are for concerning when you check with me).

-- **Imogene Bergstrom**

Complete guide! Its such a great study. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
