Bridget Lane, a typical British housewife and lady of the house, treated her family for the physical ills that befell them. She gathered more than 150 cures and remedies, compiling them along with her unique insights into healing principles and practices of the time. Edited with detailed commentary by Vincent DiMarco, a longtime scholar of medieval literature, this text examines how Bridget Lane's cures relate to folk- and herbal medicine traditions, whether recipes preserved vestiges of magic and spiritual healing, details on ingredients and their effects, and ways certain recipes have been adapted to the modern kitchen. Based on a comprehensive analysis of how the people of the eighteenth-century understood ailments, Mrs. Lane's guide and the attendant commentary is intended for students, lovers of history, and anyone interested in the social sciences.
