Createspace Independent Publishing Platform, 2015. Paperback. Condition: New. Large Print. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Deep Space is where we want to go but we are limited by our knowledge and understanding of the universe. If we knew more about why the universe looks the way it does, could we not go further? Over the last hundred years, through technological advances humanity has been able to reach out and observe the great cosmic mysteries. Penetrating over 15,000,000,000 light years into the past only to find more and more enigmas compounding upon our original, fantastical, and yet unresolved discoveries. Imagine if our understanding of the foundations of astrophysics were intact. Where would we be able to go? In this book, Keys to Unlocking the Universe, Clemons Kunkel presents his ground breaking theories on all great scientific discoveries, such as Black Holes, Dark Matter, and the Dark Energy, that were previously disjointed, now brought together in one cohesive theory. Through four years of presentations and research into the theories, he has discovered over thirty- seven empirical evidences providing substantial, undeniable validation beyond coincidence. A cornerstone of this theory includes the events (CMB, Great Attractor, Great Wall, Great Void) viewed previously as isolated, unknown phenomena can now be understood as integral. New theories on explaining why the universe looks the way it does, because it has to. This is not Super String Theory or M theory or Super Gravity Theory; it is a totally new mind-blowing theory. How is space squeezed and pushed on by the other dimensions? Is it possible to travel faster than the speed of light? Do you know how fast you are traveling in space right now? If you take just one of the speeds like the Milky Way galaxy, it is moving...
