Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.There s trouble on CMC-6 and it s been brewing for a long time. The golden age of space travel and asteroid mining has ended and the bean counters have taken over. Sally Buds patients are all suffering from low-gravity syndrome because the Canadian Mining Consortium won t spring for gravity generators and the miners won t exercise. On top of this the station might be facing hard times. An expensive mining robot disappeared while surveying a region of space known and Kelthy. But then, after a replacement is over, it reappears. How could the station personnel have been so incompetent? But Sally has another question. Where did the probe go when it was out of contact? Where did the strange rock samples come from and why did the images it saw not correspond with known star charts? Her new friend Ian Merryfield, an RAF shuttle pilot, wants to know, too. But the station commander does not. What is in the Kelthy region and why do things disappear there? Is it a hoax intended to scare away claim jumpers or...
