By William E Beane Ph D

Createspace, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Overview: You may have a direct report whose performance hasn't been what it should be for some time. You've talked with him, but his improvements are short-lived. Or one of your project teams is losing traction. All the parts seem to be in place, but performance is still lagging. You're worried that the finger pointing will start soon. Another member of your team isn't living up to her capability. She is very talented and her performance is good, but not great. You wonder what's blocking her from still higher achievement. A colleague isn't collaborating well. You're simply not getting the support you need. Mind the Gap will give you the tools for analyzing and improving performance across each of these cases and many more. You will learn how to analyze any performance gap between current performance and expected or desired performance and then, how to close that gap. The performance tools are built around the Performance-7 System, a comprehensive, yet intuitive system for improving performance. The basic system is introduced as a...
