Sailing Into American History (Paperback)

By Ian Verchere

New Generation Publishing, United Kingdom, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.THIS IS THE DIARY of a British sailboat's passage up the US Intra-coastal Waterway, observing America's lifestyle, history and cultural paradoxes and written with gusto and empathy. It's a well-crafted book steeped in the euphoria of travel and ending with some sober thoughts on the demonic 9/11 attack on New York City. A fascinating insight into early North American history set against the backdrop of a boating adventure along the eastern seaboard from Florida to New York. MOST PEOPLE EXPLORE North America from coast-to-coast. Others journey up the eastern seaboard's Intra-coastal Waterway -- with its tricky ocean inlets, shallow estuaries, violent climate - and have a very different perspective. This is the fractured landfall along which intrepid sixteenth and seventeenth century colonists from England first set foot in the New World after crossing the Atlantic. In some places the coast is still a raw, impenetrable wilderness; in others, the orderly symmetry of restless humanity encroaches. A delightful and informative read.

Reviews

Basically no words to describe. It is filled with knowledge and wisdom I am just pleased to let you know that this is actually the greatest publication i have read within my individual lifestyle and may be the best publication for at any time.

-- Prof. Ron Gaylord II

A top quality publication and also the font employed was interesting to learn. It is really simplistic but excitement within the fifty percent from the book. Its been designed in an remarkably basic way in fact it is only following i finished reading this pdf where in fact changed me, modify the way i believe.
