

Nanobe: A Harry Grouch Mystery (Paperback)

By MR Robert Tell

Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. When 6 hospital patients die mysteriously from Rapidly Progressive Dementia, Harry Grouch is hired to investigate the cause. Is it a biological accident involving a new and mysterious pathogen, or is it murder using a unique murder weapon, a nanobe: a tiny organism that may or may not be alive but, if living, would be the smallest form of life, 1/10 the size of the smallest known bacteria? You can't kill something that isn't alive! That shocking discovery is the key to this compelling whodunit. A mysterious pathogen is infecting neurosurgical patients at Bard Memorial Hospital. Dementia and rapid death follow. The microorganism causing this disease is surviving all known sterilization techniques. Why isn't the disinfection process used by the Operating Rooms destroying this astonishing bug? Things look bleak for the hospital. The County Medical Examiner is accusing the hospital of a malpractice cover-up, while the doctors argue furiously over the many theories about what is happening. The Police Chief suspects foul play. The media and public have condemned the hospital and doctors. Harry Grouch and...
