ABIHAIL: A FATHER S STORY (PAPERBACK)

DOWNLOAD PDF

Createspace Independent Publishing Platform, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This book is for anyone going through difficult family situations such as a separation or divorce while raising children. It is part informative, part story-telling, and a bit of what some may call an instruction manual or road map. While reading this you may find it to be a helpful aid with the struggles you are having as a parent. This is especially true for those parents going through the inevitable life changing events with their kids and learning how to work past those struggles. This book is a discussion of coping as a single parent. The information you will read speaks to the early stages of a child s life. This is the time when some children may split time living with both parents in different places without regard to schooling. Sometimes when a relationship ends it s not easy to see the other person s point of view and hopefully this book will help to enable us to look at all aspects before making irrational decisions involving a child/children. The goal is always looking out for what is in the best interest of the child and not necessarily what may be in the best interest of ourselves.
