human well-being. Cultivation and cooking of food have come down the ages into complex

activities highly specialized and associated with concentrated commercial interests. Together these

are coming under the direction of science and the regulation of the community. Occupation with

the needs created by living, is a common human pursuit, practiced with or without purpose or plan.

Any continuation of life necessitates work. Advancing life requires intelligent work that includes the

study of how to live constructively. That this may be, the study of food in school is now generally

advised by all prepared to see its bearing upon both wholesome life and efficient work, and also

how the understanding cooperation of humanity is needed in supplying and selecting what is of use

for growth and health. Civilization, in whatever stage it is at the time, is the environment into which

each generation comes. But what the environment becomes in its supplies and practices is

determined...
