## French Secret Projects: Post War Fighters (Hardback)

By Jean-Christophe Carbonel

Crecy Publishing, United Kingdom, 2016. Hardback. Condition: New. Language: English . Brand New Book. Following World War II France made determined efforts to catch-up with other countries in developing high-performance aircraft and designed successful machines to fulfill the needs of the Arm e de l Air, the Marine Nationale and compete in export markets. For the next twenty years they were the only aircraft manufacturers to investigate with equal effort, turbojet, ramjet and rocket propulsion for manned fighters, either taking advantage of German war-booty technology or using national pre-war research. A few, such as the Leduc and Griffon ramjet-powered fighters, reached prototype form, the Trident rocket-interceptor advanced to the experimental series (pre-production) stage and the Ouragan, Mystere, Super-Mystere, Mirage III and Etendard were produced in quantity and went on to win export orders. Later, when the turbojet had won the race for the optimal propulsion system, many attempts were made to design variable-geometry aircraft (including the Mirage G series) and VTOL types (the SNECMA Col optere and Dassault Mirage IIIV), and there were even a few flying boat interceptor studies. In the late sixties, in the pursuit of ever-higher speeds, Nord Aviation, Sud Aviation and primarily Avions Marcel Dassault also...

### Reviews

*A must buy book if you need to adding benefit. I am quite late in start reading this one, but better then never. Its been designed in an exceptionally easy way in fact it is only after i finished reading this publication where in fact modified me, alter the way in my opinion.*

-- Prof. London Gerlach

*Absolutely among the finest pdf I have got possibly read. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.*
