Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Manual: Descriptive of a Collection of Talismans Engraved on Stones and Metals of Various Countries and Epochs, Illustrative of What Man Has Worn for His Protection From Accident and Disease; Also, Ancient Gems, Babylonian Cylinders, Persian Seals, Etc The subject of Glyptology is at last meeting with so much appreciation among learned men in our land that in all probability its consideration will soon form one feature in the list of sciences which should be taught to those seeking a finished education. Whilst making the classified collection now on loan at the Metropolitan Museum of Art, New York, I have been led from one branch and epoch to another until all phases of the art have been represented. The part of that collection now on view at the University of Pennsylvania represents the ethnological branch of my subject. These Talismans or Amulets have been worn on the bodies of peoples of many countries and epochs, in earnest confidence with superstitious belief in their efficacy.
