Across the narrow gorge the little foot-bridge stretched-a brace of logs, the upper surface hewn, and a slight hand-rail formed of a cedar pole. A flimsy structure, one might think, looking down at the dark and rocky depths beneath, through which flowed the mountain stream, swift and strong, but it was doubtless substantial enough for all ordinary usage, and certainly sufficient for the imponderable and elusive travellers who by common report frequented it. This item ships from La Vergne, TN. Paperback.
