## Click Start 1: Computer Science for Schools

By Ayesha Soldier

Cambridge University Press, 2010. Softcover. Book Condition: New. Click Start: Computer Science for Schools is an eight-level series of textbooks for students. The series adopts an interactive approach and makes learning an enjoyable and enriching experience. It provides the basic elements as well as captures the latest trends in computer education. Books 1 to 5 focus on learning the basics of computer system, computer science and networking; and on understanding the MS Office package along with LOGO as a programming language. Books 6 to 8 extend the learning to Flash, HTML, QBASIC, Visual Basic, Photoshop, communication and networking, and the concept of programming language; and train the students to protect the Computer Systems against various computer viruses. Key Features ? Simple and lucid explanation of the contents ? Local to global examples with cross-cultural references ? Activities interspersed within each chapter to promote application based learning ? Exercises for interactive tasks with guided discussions ? Glossary and Now You Know at the end of each chapter to aid quick recapitulation ? Lab Work to encourage learning by doing ? Biographies to inspire young learners ? Teacher?s Manual to facilitate teaching ? CD-ROM to make learning a multi-sensory experience Key Features...

### Reviews

*I actually began looking over this pdf. This can be for all those who statte there was not a worthy of reading through. I am easily can get a enjoyment of reading through a written publication.*

-- **Rafael Feeney Jr.**

*Without doubt, this is actually the best job by any publisher. It is writter in basic phrases instead of difficult to understand. You will like the way the author publish this publication.*

-- **Dr. Marvin Deckow**
