Forgotten Books, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from **How the Curriculum of the Secondary School Might Be Reconstructed** For the high school, with its curriculum carried to its logical conclusion, is in effect the people s univer sity; it is the only place where the ordinary boy or girl - by which I mean those who are precluded by circumstances from receiving the benefits of further or higher formal education can be prepared for the battle of life; and it is the duty of the high school to equip them adequately. As the demand for technical instruction increases, the odds against the untrained youth grow heavier; and the secondary school that me glets to furnish all the technical training it is capable of imparting will fail to justify its position in view oi the steadily advancing standards of the nation.
