

## Health financing policy: the macroeconomic, fiscal, and public finance context (Paperback)

By Cheryl S. Cashin, World Bank

World Bank Publications, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book. The global movement toward universal health coverage (UHC) is accompanied by requests for large increases in government health spending in some countries. This combined with the global economic situation and stagnant economic growth across many low- and middle-income countries make it more critical than ever to place health financing discussions firmly in the context of macroeconomic and fiscal realities. Unfortunately, there is often a disconnect in decision making, with key fiscal decisions made in the absence of a clear understanding on the one hand of the potential consequences for the health sector, and on the other, the consequences for the country's macroeconomic and fiscal position of increasing or reallocating government spending. Constructive health financing policy dialogue aims to reach a common understanding between health sector leaders and central budget authorities about policy objectives for the health sector and the resources needed to achieve those objectives, how much priority will be given to health in the government budget, and how the health sector will be held accountable for using funds effectively. This common understanding should be built on a realistic picture of the country s...
